ALA-1

- PROGRAM 50 — | Enrolment: 241105060050
- Error code

```
print("Class Attendance")
students = []
present = []
for i in range(3)
 name = input("Enter name: ")
 students.append(name)
for i in range(2)
 p = input("Enter present student: ")
 present.append(p)
for s in students:
 if s in present
 print(s,"Present")
 else
 print(s,"Absent")
print("Done")
```

Line	Your Original Code	The Error	The Solution (Corrected Line)
1	for i in range(3)	**Missing Colon:** Loops must end with :.	for i in range(3):
2	name = input(...)	**Indentation:** This line must be moved to the right.	name = input("Enter name: ")
3	students.append(name)	**Indentation:** This line must also be moved to the right.	students.append(name)
4	for i in range(2)	**Missing Colon:** Loops must end with :.	for i in range(2):
5	p = input(...)	**Indentation:** Needs to be moved to the right.	p = input("Enter present student: ")
6	present.append(p)	**Indentation:** Needs to be moved to the right.	present.append(p)
7	for s in students:	*Correct (if colon is present)*	for s in students:
8	if s in present	**Missing Colon:** Conditions must end with :.	if s in present:
9	print(s,"Present")	**Double Indentation:** Needs more space to be inside the if.	print(s, "Present")
10	else	**Missing Colon:** The else keyword needs :.	else:
11	print(s,"Absent")	**Double Indentation:** Needs more space to be inside the else.	print(s, "Absent")

SOLUTION:-

```python
print("Class Attendance")
students = []
present = []

# Loop to collect student names
for i in range(3):
    name = input("Enter name: ")
    students.append(name)

# Loop to collect present students
for i in range(2):
    p = input("Enter present student: ")
    present.append(p)

# Logic to check attendance
for s in students:
    if s in present:
        print(s, "Present")
    else:
        print(s, "Absent")

print("Done")
```

Output:-

```
Run  solution

C:\Users\HELLO\PycharmProjects\PythonProject1\.venv\Scripts\python.exe C:\Users\HELLO\PycharmProjects\PythonProject1\solution.py
Class Attendance
Enter name: manthan
Enter name: jeet
Enter name: niku
Enter present student: manthan
Enter present student: jeet
manthan Present
jeet Present
niku Absent
Done

Process finished with exit code 0
```
